As a passionate and motivated fresher, my objective is to kickstart my career as a Software Developer and contribute to the development, testing, and implementation of innovative software programs. I am eager to work closely with an energetic team of engineers, refining the design, implementation, and architecture of cloud-based products. With a strong focus on writing clean and efficient code, I aim to troubleshoot, debug, and maintain existing software programs. I am committed to continuously monitoring the quality, performance, and usage of developed functionalities in applications. By collaborating with cross-functional teams, I strive to enhance the applications and contribute to their continuous improvement.

PROJECTS

E-Panchayat Portal

(03/2024)

- Developed a user-friendly E-panchayat portal using HTML and CSS And Javascript.
- Implemented intuitive design and smooth navigation for easy user interaction.
